

DANEMILL RE OPENING RISK ASSESSMENT

Activities Covered by this Assessment	Reopening of schools during COVID 19 (November 2020)		
Location	Danemill Primary School	Organisation	DISCOVERY

Note: A person specific assessment must be carried out for young persons, disabled staff and new and expectant mothers if appropriate

**This risk assessment is for guidance only and must be adapted to include any further hazards and subsequent control measures.
Once completed, please ensure final risk ratings are added.**

Guidance for full opening: schools. Please refer to: <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

System of control:

Prevention:

1. minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school.
2. Where recommended, the use of face coverings in school.
3. Clean hands thoroughly more often than usual.
4. Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.
5. Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach.
6. Minimise contact between individuals and maintain social distancing wherever possible.
7. Where necessary, wear appropriate personal protective equipment (PPE).
8. Always keep occupied spaces well ventilated.

Numbers 1 to 5, and number 8, must be in place in all schools, all the time.
Number 6 must be properly considered, and schools must put in place measures that suit their particular circumstances.
Number 7 applies in specific circumstances.

Response to any infection:

9. Engage with the NHS Test and Trace process.
10. Manage confirmed cases of coronavirus (COVID-19) amongst the school community.
11. Contain any outbreak by following local health protection team advice.

Numbers 7 to 9 must be followed in every case where they are relevant.

Attendance: Pupil attendance will be mandatory again from the beginning of the autumn term. This means from that point, the usual rules on school attendance will apply, including:

- parents' duty to ensure their child attends regularly at a school where the child is a registered pupil and they are of compulsory school age;
- schools' responsibilities to record attendance and follow up absence
- the availability to issue sanctions, including fixed penalty notices in line with local authorities' codes of conduct

For further advice on clinical and/or public health advice please refer to: <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools> - Pupils who are shielding or self-isolating

PPE:

The majority of staff will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain a distance of 2 metres from others. PPE is only needed in a very small number of cases:

- Children who require first aid should continue to receive care in the same way. No additional PPE is needed because of coronavirus (COVID-19) for anyone who does not have coronavirus (COVID-19) symptoms.
- Where an individual child becomes ill with coronavirus (COVID-19) symptoms and only then if a distance of 2 metres cannot be maintained.

DANEMILL RE OPENING RISK ASSESSMENT

- Where a child already has routine intimate care needs that involves the use of PPE, in which case the same PPE should continue to be used.

It is advised that you carry out an inspection of the premises before full opening and record the findings.

Monitoring and review of risk controls

It is important that employers know how effective their risk controls are. You should monitor and review the preventive and protective measures regularly, to ensure the measures are working, and taking action to address any shortfalls.

During this activity, what could go wrong resulting in an emergency situation?

1. Child displays symptoms with CV19

DANEMILL RE OPENING RISK ASSESSMENT

	<ol style="list-style-type: none"> 2. Child from teaching group who has been sent home becomes confirmed case. 3. Staff becoming ill and self-isolating.
How could this emergency situation be prevented / controlled?	<ol style="list-style-type: none"> 1. Isolate child until collected. 2. All children in that teaching group to be sent home and told to self-isolate for 14 days. 3. Follow self-isolating guidance, ensure that reporting of illness procedures well understood.
Who should respond to a potential emergency situation and how? Have staff been trained to respond to this emergency situation?	<ol style="list-style-type: none"> 1. Staff to supervise child until collected where 2m rule cannot be implemented PPE to be worn. 2. Make staff aware of guidance in link below, develop guidance on internal monitoring of staff and pupils on self-isolation and student attendance recording. 3. Follow guidance: https://www.gov.uk/government/publications/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings Consider reallocating staff or capacity of school to remain open. Consult Trust on closure and inform LEA.
Could any non – routine changes affect the safety arrangements in place for this activity? (E.g. weather, people, equipment etc.) What can be done?	Additional pupil numbers in phase 2 and 3 – review procedures and social distancing, refer to any new government guidance.

Potential Severity of Harm	High Death, paralysis, long term serious ill health.	Medium	High	High
	Medium An injury requiring further medical assistance or is a RIDDOR incident.	Low	Medium	High
	Low Minor injuries not resulting in any first aid or absence from work.	Low	Low	Medium

DANEMILL RE OPENING RISK ASSESSMENT

Low The event is unlikely to happen.	Medium It is fairly likely to happen.	High It is likely to happen.
Likelihood of Harm Occurring		

Risk Rating Definitions	
Low	This is an acceptable level of risk. No further controls are required as the risk rating cannot be reduced any further. However, it is advised that continual monitoring occurs in order to ensure that no changes / deviation of control measures occur.
Medium	It is advised that further controls are implemented to reduce the risk rating to as low a level as possible. If the risk cannot be reduced to lower than a medium, then on site monitoring should occur to ensure that all stipulated controls are being adhered to.
High	This is an unacceptable risk rating. Urgent interim controls should be implemented to reduce the risk so far as is reasonably practicable. If the risk rating cannot be reduced to lower than a High , then a documented safe system of work should be implemented to control the activity. It may be necessary to seek further professional advice. Serious considerations should be given to the validity of carrying out the activity at all. Regular monitoring of the activity should occur.
